# ILLINOIS DISTRICT REPORT CARD

State and federal laws require public school districts to release report cards to the public each year.

This year, we have updated the report card to provide a full picture of school performance beyond just test scores. A display of this data designed with parents and communities in mind is available on [illinoisreportcard.com](http://illinoisreportcard.com). All of the metrics posted on [illinoisreportcard.com](http://illinoisreportcard.com) are also included in this report.

**Low-income** students come from families receiving public aid; live in institutions for neglected or delinquent children; are supported in foster homes with public funds; or are eligible to receive free or reduced-price lunches.

**IEP** students are those students eligible to receive special education services.

**Limited-English-proficient** students are those students eligible for transitional bilingual programs.

**Total Enrollment** is based on [Serving School](#).

**Homeless** students are students who do not have permanent and adequate homes.

**Chronic truants** are students who are absent from school without valid cause for 9 or more of the last 180 school days.

\*\* Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per \$100 are not provided.

**Equalized assessed valuation** includes all computed property values upon which a district's local tax rate is calculated.

**Total school tax rate** is a district's total tax rate as it appears on local property tax bills.

**Instructional expenditure per pupil** includes the direct costs of teaching pupils or the interaction between teachers and pupils.

**Operating expenditure per pupil** includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures.

### OVERALL STUDENT PERFORMANCE

These charts present the overall percentage of state test scores categorized as meeting or exceeding the PARCC expectations, SAT standards or DLM-AA Standards for your district, and the state.

**PARCC PERFORMANCE**

These charts show the percentage of student scores meeting or exceeding expectations for the grades and subjects tested on PARCC that have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers.

## PERFORMANCE ON STATE ASSESSMENTS

Federal law requires that student achievement results for schools providing Title I services be reported to the general public.

The PARCC is administered to students in grade 3 through 8. SAT is administered to students in grade 11. The DLM-AA is administered to students in grade 3 through 8 and 11 with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the PARCC or SAT would not be appropriate.

Students with disabilities have an IEP. An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act.

In order to protect students' identities, test data for groups of fewer than ten students are not reported.

## Partnership for Assessment of Readiness for College and Careers (PARCC)

Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are five Performance Levels for PARCC assessments:

- Level 1: Did not yet meet expectations
- Level 2: Partially met expectations
- Level 3: Approached expectations
- Level 4: Met expectations
- Level 5: Exceeded expectations

Students performing at levels 4 and 5 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors (PLDs) describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area (ELA and mathematics), and at each grade level/course. PLDs are available at <http://avocet.pearson.com/PARCC/Home>.

## EDUCATIONAL ENVIRONMENTS FOR STUDENTS WITH DISABILITIES

Educational environment refers to the extent to which students with disabilities receive special education and related services in classes or schools with their non-disabled peers. Research has shown that students with disabilities who received their special education and/or related services in the general education environment displayed increased motivation, higher self-esteem, improved communication and socialization skills, and greater academic achievement as compared to students who received their special education and/or related services in a more restrictive, or segregated, environment.

The educational environments in which students with disabilities ages 6-21 receive their special education and/or related

services are generally classified into four settings:

1. Served inside the general education classroom 80% or more of the day
2. Served inside the general education classroom 40% to 79% of the day
3. Served inside the general education classroom less than 40% of the day
4. Served in separate educational facilities

The following information is provided for students ages 6 through 21.

### **Early Childhood Educational Environments (ages 3-5)**

Educational environments for children ages 3 through 5 can be generally classified into one of the following settings:

- A. Children attending a regular early childhood program and receives the majority of special education and related services in the regular early childhood program.
- B. Children attending a regular early childhood program and receives the majority of special education and related services in some other location.
- C. Children receiving special education or related services full time in a separate class/facility.
- D. Children receiving special education or related services full time in the child's home.
- E. Children receiving special education or related services from a service provider, and who do not attend an early childhood or special education program.

## STATE PERFORMANCE PLAN INDICATORS FOR STUDENTS WITH DISABILITIES

The Individuals with Disabilities Education Act (IDEA 2004) requires states to develop and submit a State Performance Plan (SPP) to the Office of Special Education Programs (OSEP) at the U.S. Department of Education. The SPP is designed to evaluate the State's efforts to implement the requirements and purposes of IDEA and describe how the State will improve its implementation. The plan consists of several priority areas with specific indicators defined for each area. Measurable and rigorous targets are defined for each indicator to show progress throughout the life of the SPP. States are required to publicly report on SPP Indicators 1-14. A link to the Illinois State Performance Plan, Part B can be found at: <https://www.isbe.net/Pages/State-Performance-Plan-Data-and-Accountability.aspx>

The table below shows how this school district performed on specific indicators and whether or not it met the annual state targets for those indicators as defined in the Illinois State Performance Plan. Some indicators require a minimum number of students before comparing district data to the state targets. "N/A" indicates that either the district did not have enough students to report on the district's performance for that particular indicator or the district does not serve students of the ages measured by the indicator.

The State Test Participation Rate is calculated by dividing the number of participants by the Tested Enrollment. At least 95% of students should be tested in ELA and mathematics with at least 10 students. If the state test participation rate is less than 95%, a 95% confidence interval is applied and the student group can meet the 95% target through the confidence interval.
